## **Information for candidates – Physician Associate**

Leiston surgery is a friendly, innovated and well organised surgery that is looking to recruit a full time Physician Associate to enhance their the clinical team.

The doctors and staff aspire to provide traditional family medicine and the highest quality of care. There is a friendly atmosphere and strong team spirit, there are 5 GP partners who all have special interests, and the team consists of a full nursing team, practice paramedic and a physio therapy service. Leiston surgery we part of 'Suffolk Primary Care' there will be opportunities to network and train with other healthcare professionals within Suffolk Primary Care

You will participate fully in the practice providing telephone triage, on call, booked clinics and potentially home visits (depending on experience). As part of your role, you will be helping the practice establish PA protocols and pathways. There will be an opportunity to develop your own special interest and to get involved with the teaching and research activities within the practice. You will have a GP mentor and supervision, your personal developments are very important to us.

The practice has a very strong interest in medical education being an accredited centre for training registrars, and medical students from Cambridge University and Norwich Medical School.

The surgery is located in a recently extended health centre in the Suffolk town of Leiston, equidistant to Saxmundham and Aldeburgh and about 2 miles from the coast. There is a branch surgery in the nearby village of Yoxford. The practice looks after approximately 7000 patients in this picturesque and tranquil village which attracts visitors all year round. We provide a full range of primary health services under a PMS contract; services include minor surgery, minor injury, child health care, maternity services, phlebotomy, diabetic clinics, respiratory services, women's health, contraception services, travel clinics and mental health services.

You will need to have a recognised Post Graduate qualification in Physician Associate Studies, and have a desire and commitment to further learning and training.

Leiston Surgery is flexible in the successful candidate's start date.
